layor Grant Asked to Refuse a License Recause There's no Proscenium.

Mayor Grant has received a letter of proest on behalf of the proprietors of twenty of the twenty-nine theatres of the city against the licensing of the new Madison Square Garden, and asking for a hearing

on the application for such license.

A protest and petition for such hearing is said to have been signed by the theatre proprictors and managers referred to, but the Mayor has not received it as yet and has named no day for a hearing.

The protestants base their claim that the Mayor should refuse to license the new Garden because stage scenery and apparatus are to be used in a building which is not constructed in conformity to the provisions of the Building law, chapter 566 of the

The theatree the managers and propietors of which do not protest are: the Windson, Third Arenny, New Park, Procedor's, Grand Open-House, Casino, Tony Pastor's, Harry Kencedy's and Daly's.

Similar protests to that sent the Mayor have been forwarded to the Fire Commissioners and Superintendent of Buildings Brady, who must certify that the building comples with the requirements of the law before the Mayor can issue a license.

It is understood that the Fire Commissioners certificate will not be withheld or that the Mayor will license the new Garlon.

The theatre in the building is said to be built in strict compliance with the provisions of the status, and Manager T.
